6. Happy Hash Plan
7. 7 Day Run

Other bonuses like Leadership Pool, Block-Match Bonus and the Tesla Car concept will be introduced at the Avalon-Life Kick Off Launch event in November 2016.

# A1

## **Avalon-Life License Partner**

An LP is an independent license partner that sells and uses the entire service and product line of Avalon-Life. LP's have the opportunity to build an independent worldwide network of other Avalon-Life license partners and / or customers. A License Partner will be paid according to the „Compensation Plan“ in crypto currencies or mining power and not in Fiat Money.

### **The Avalon-Life License Partnership has the following requirements:**

- A monthly license fee of 80 CV (80 USD) Payable 12 months in advance.
- Attending an Introductory Seminar „AVALON 1“ within 6 months.
- Passing the final exam.

An LP has the right to use all the services of Avalon-Life and act as an official licensing partner and ambassador of Avalon-Life. The license allows the LP to build a worldwide business and generate profits from the gross margins and also receive income from sales of it's activated LP network according to the compensation plan. An LP is neither an employee of Avalon-Life, nor may appear as an ENTERPRISE Avalon-Life. Statements in this regard are only approved when an activated LP adds „license partner of Avalon-Life“ to their company name which will also be checked by compliance.

# A2

## **Customer**

A customer is an individual who buys or advertises/services of Avalon-Life through a license partner. Customers can not be acquired directly from Avalon-Life, nor considered as direct customers of Avalon-Life. A customer can offer and sell products from Avalon-Life as part of the “Customer Referral Program”. The customer will be only paid in hash power, fiat money or crypto currencies are excluded. The appropriate modalities are defined in paragraph B section

# B1

## Earnings through Sales to Customers

An LP may attract and win customers through their own activities and efforts (e.g. through the use of our provided marketing tools such as web sites, information, reports, etc.). The LP receives 10% of the purchased hash power that their customer bought. The hash power will be applied to the LP's account. The hash power is activated for an indefinite period of time and receives the status of "LIFETIME". Please see the section „FAQ“ on our website and how we define Lifetime. If a customer buys products other than mining, the LP will be credited 100% of the purchase price. (Example: A Customer purchases on the site of an LP the product „Cryptinsider“ at the price of 890 USD, the LP receives the full amount of the CV.)

# B2

## Customer Referral Program

When a customer refers a NEW customer she/he receives a hash power bonus of 5% of the purchase from the new bought products. The license partner who leads the „referring customer“ also gets 5% hash power credited to her/his account. LIFETIME status of the hash power applies here also.

In case the license expires of the LP (termination or not renewing the license) the customer and the hash power will be applied and credited to the next highest LP (dependent on the Unilevel plan).

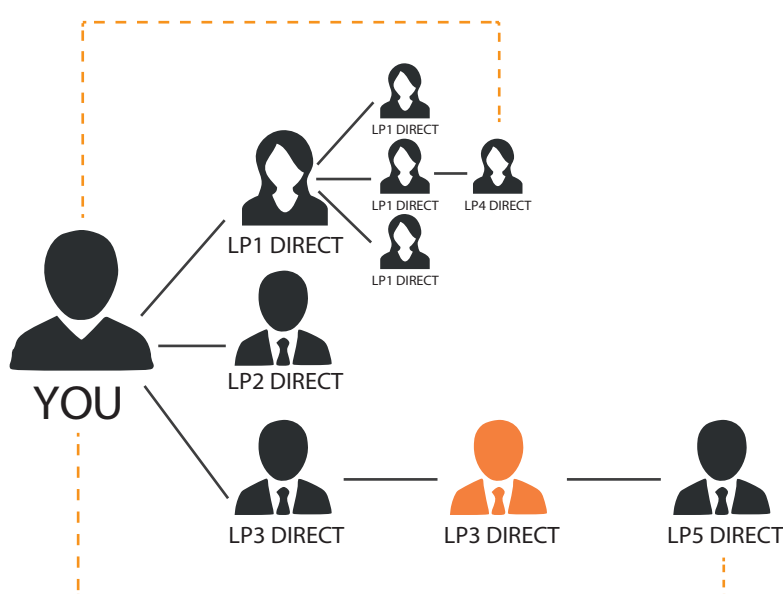

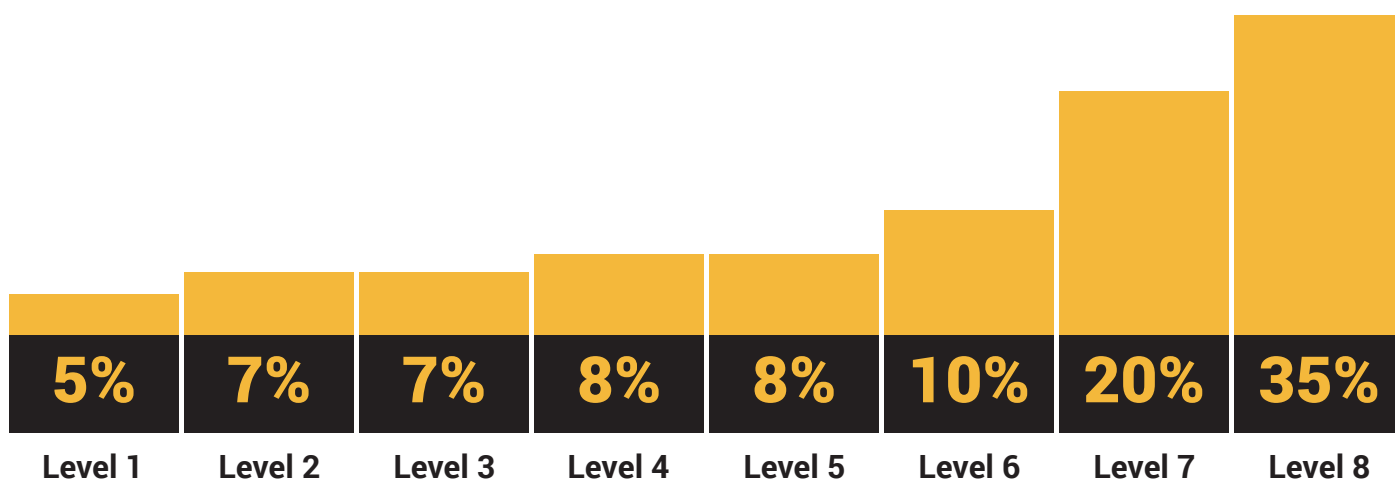

# B3

## Triple Chain Family Plan

This compensation plan is designed specifically to support the active license partner that does not have the necessary skills to build a large profitable network alone.

Avalon-Life will pay here up to 8 levels according to the following table:

100% of eligible CV will be paid in full (100% corresponds to 40 CV). A „CV“ is the company's internal „currency“ which serves as a balance to currency fluctuations and corresponds at the moment (07.22.2016) at 1 CV = 1 USD.

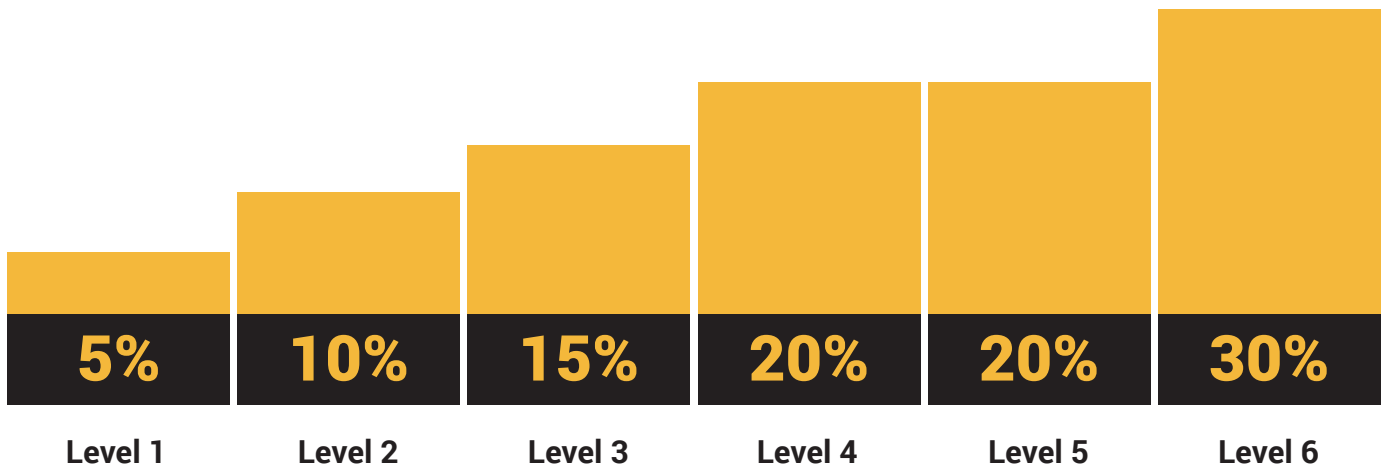

This plan is limited to 3 personally activated license partner on the first level and will be compensated up to level 8, including dynamic compression (ONLY active LP will be counted). Each additional activated LP will be placed in the next available level. This domino effect is also called „spillover“, where the entire LP participates in the organization.

# B4

## Unilevel Plan

This compensation plan is a 6 level, unilevel plan. Unlike the Triple Chain Family Plan there is no width limitation. All of your direct LP's will be on your first level. This plan is a very powerful plan for those who love to build big teams. The more you motivate and work with your team, you will see your lower levels fill up. The more your levels fill up the more you will be compensated for. With the 2 plans Avalon-Life has the possibilities are endless.

# B5

## Startup Training Bonus

Avalon is committed to educating every NEW signed up License Partner by having them attend the Avalon Introduction Seminar. Furthermore we recommend that the sponsor LP introduces the new LP to the "First Three Steps". The „First Three Steps“ are video tutorials that explain the Avalon-Life business structure and concepts in detail. It is necessary for a new LP to complete the 3 online tutorials (1 hour of information and education). The "sponsor" LP will be responsible to mentor and guide the newly activated LP. After the new LP has completed the first 3 steps, the mentor receives a training bonus of 50 CV. If an LP activates 10 or more newbie's in one calendar month, she/he receives a „Top Bonus“ of an additional 100% for each educated activated LP.

# B6

## Happy Hash Plan (HHP)

**To qualify for this plan, you need:** 3 personally activated LP's- OR - 5 customers (independent sales). PLUS a private hash power account with a minimum of 100 MHS (Node 2 package).

**Avalon-Life pays 1 MHZ on all initial orders from node 2 package of an LP up to Level 16.**

Example: I am a qualified LP for HHP and activate a new LP. The new LP buys after registration e.g. "node 3" package for 250 MH's. I receive a credit from Avalon-Life for 1 MH's on my hashpower account. This NEW LP will also activate a NEW LP with a „Node 2“ package, ie 100 MH's. He receives 1 MH's and I, as his mentor, also get 1 MH's. The assigned hash power from the Happy Hash Plan applies here for "Lifetime" and only applies once after the first order of a "node 2" mining package (100 MHS) was successfully activated.

# B7

## 7 Day Run

If a new activated LP chooses within the first 7 days a mining package "node 2" 100 MH's, the special promotion (duration 365 days) will be paid in extra Mhs:

	<b>Node 1</b>	- 50 Mhs - 0
	<b>Node 2</b>	- 100 Mhs - additional 5 Mhs
	<b>Node 3</b>	- 250 Mhs - additional 15 Mhs
	<b>Node 4</b>	- 500 Mhs - additional 50 Mhs
	<b>Node 5</b>	- 1000 Mhs - additional 100 Mhs

**Note:** The additional Hashpower is not commissionable.

**Leadership-Pool, Blockmatch-Bonus and Tesla Car Concept will be introduced at the Avalon-Life Kick Off Event in November 2016.**

### Abbreviations:

**CV** = commission volume : 1 CV = 1 USD (status from 07.22.2016)

**Lifetime Mining:** indefinite mining duration. As long as the „mining“ causes no losses for both sides (Avalon-Life S.A. and customer/license partner).

**1 Mhs** is the measured mining power and corresponds to 1 Million Hash. (Mega Hash)

**LP** = license partner

**HHP** = Happy Hash Plan

**Mentor.** Sponsor of a brand new LP

These statements are part of the overall Policies / Procedures of Avalon Life S.A.
